I N D E X
to the
JOURNAL OF
THE SOUTH AFRICAN CHEMICAL INSTITUTE
for
VOLS I-V (JUNE, 1948 to JUNE, 1952)
SUBJECT INDEX

A

- Acacia Cyclops*, composition of seed and funicle oils of II, 3, 111
- Acetic acid—acetic anhydride mixtures, an indicator study of, using thymol blue, and re-interpretation of the kinetics of the acetylation of sulphuric acid .. III, 1, 1.
- Acetylation of sulphuric acid, a re-interpretation of the kinetics of, and an indicator study of acetic acid—acetic anhydride mixtures using thymol blue .. III, 1, 1.
- Ageing of aqueous suspensions of magnesium hydroxide I, 2, 61.
- Alkaloid from the fruit of *Solanum Panduræforme* E. Mey II, 3, 119
- Alkaloids, senecio—The ultra-violet extinction curves of the alkaloids and the "Necic" acids III, 2, 73.
- Alkaloids, South African senecio—The structure of scleraneccic acid I, 1, 23.
- Alkaloids, South African senecio, X—The structure of scleraneccic and scleratinic acids IV, 1, 115.
- Aluminium chloride, anhydrous, the action of a phenyl cinnamate II, 2, 109.
- Amino acetic acid, rate of hydrogen exchange in aqueous solutions of IV, 1, 51.
- Anodic oxidation of calcium lactate solutions IV, 2, 7.
- Antimony in antimonial lead, the spectrochemical determination of high percentages of II, 1, 7.
- Ascorbic acid in the guava (*Psidium Guajava*), an investigation of the synthesis of Autocatalytic growth curve—
- Part I. Increase in weight of infants III, 2, 41.
- Part II. Increase in height of oats III, 2, 51.

B

- Boron in staal, die spektrochemiese bepaling van I, 2, 81.
- Boron, colorimetric determination of, using acetylated quinalizarin IV, 1, 109.
- Boron halides, properties of—
- Part I. The viscosity of boron trifluoride in the range 20-200°C IV, 1, 123.
- Bromine vapour method, modified, for the determination of iodine values III, 2, 23.

C

- Calcium lactate solutions, the anodic oxidation of IV, 2, 7.
- Cane molasses fermentations—
- Part III. An account of a search for strains of aspergilli that will give good yields of citric acid in stationary culture from all varieties of Natal molasses II, 2, 77.
- Part IV. The determination of citric acid in molasses fermentation media II, 2, 89.
- Part V. The influence of inorganic anions, particularly chloride and sulphate, upon the citric-oxalic acid fermentation II, 2, 95.

Part VI. Some observations on the yellow pigments produced by certain strains of <i>Aspergillus Niger</i>	II, 2, 105.
Cape berry wax, fruit coat fat of <i>Myrica Cordifolia</i>	I, 1, 5.
Cast iron, spectrochemical determination of magnesium in	III, 1, 17.
Chemical technology of soupfin—shark liver oil	I, 1, 39.
Chloral, condensation products of, with certain p-substituted phenols and some derivatives of possible chemotherapeutic interest	III, 1, 13.
Chlorination tests on South African coals	IV, 1, 97.
Cinnamic acid, and certain phenols, the reaction between	II, 3, 165.
Coal, nitric acid oxidation of—	
Part I. Identification of some components of the ether-soluble fraction ..	III, 2, 67.
Part II. The ether-insoluble constituents: the humic acids and the neutral ether-insoluble product	IV, 1, 25.
Part III. Investigation of a chromatographically separated nitrohumic acid fraction	IV, 2, 17.
Coals, South African, chlorination tests on	IV, 1, 97.
Coal, Witbank fine, recovery of coking fraction from, by means of the cyclone washer	II, 1, 29.
Coking fraction from Witbank fine coal, recovery of by means of the cyclone washer	II, 1, 29.
Colorimetric determination of boron using acetylated quinalizarin	IV, 1, 109.
Condensation products of chloral with certain p-substituted phenols and some derivatives of possible chemotherapeutic interest	III, 1, 13.
Copper, interference of molybdenum in the determination of	II, 2, 75.
Cyclone washer, recovery of the coking fraction from Witbank fine coal by means of	II, 1, 29.
D	
Dehydration, catalysed, of oxalic acid in acetic acid-acetic anhydride mixtures ..	IV, 1, 85.
Dehydration, uncatalysed, of oxalic acid in acetic acid—acetic anhydride mixtures, kinetics of	II, 3, 147.
E	
Electrometric method, sensitive, for the determination of sulphide ion in solution	V, 1, 45.
F	
Fats from South African indigenous plants, studies of—	
Part I. The seed-fat of <i>Acacia Giraffae</i> (Kameeldoorn)	V, 1, 1.
Part II. The seed pod fat of <i>Acacia Giraffae</i> (Kameeldoorn)	V, 1, 13.
Part III. $\Delta^{9,12}$ hexadecadienoic acid 9. Its constitution and occurrence in seed fat and seed pod fat of <i>Acacia Giraffae</i> (Kameeldoorn)	V, 1, 23.
Fatty compounds, hydroxyl value of	I, 2, 85.
Fish poisonous plants, South African—	
Part I. Preliminary chemical investigations of the tuber of <i>Neorautanenia Edulis C.A.S.M.</i>	III, 2, 29.
Part II. Determination of the fish toxic properties of the organic compounds isolated from the tuber of <i>Neorautanenia Edulis C.A.S.M.</i>	III, 2, 35.
Fluorine, determination of, in water	I, 1, 1.
Fluorite membrane electrode, behaviour of, in solutions of magnesium salts ..	IV, 1, 1.
Fruit-coat fat of <i>Myrica Cordifolia</i> —Cape berry wax	I, 1, 5.
Funicle and seed oils of <i>Acacia Cyclops</i> , composition of	II, 3, 111.
G	
Gesubstitueerde karmate as moontlike insekdodende middels	II, 3, 131.
Growth curve, autocatalytic—	
Part I. Increase in weight of infants	III, 2, 41.
Part II. Increase in height of oats	III, 2, 51.
Guava (<i>Psidium Guajava</i>), an investigation of the synthesis of ascorbic acid in ..	I, 1, 35.

H	
Hydrogen exchange in aqueous solutions of sodium formate, a study of	IV, 1, 37.
Hydrogen exchange in aqueous solutions of amino acetic acid, rate of	IV, 1, 51.
Hydroxyl and water in organic compounds; a new method for the determination of ..	II, 1, 59.
Hydroxyl value of fatty compounds	I, 2, 85.

I	
Indicator study of acetic acid—acetic anhydride mixtures using thymol blue, and a reinterpretation of the kinetics of the acetylation of sulphuric acid	III, 1, 1.
Insektdodende middels, moontlike, gesubstitueerde karbamate as	II, 3, 131.
Interference of molybdenum in the determination of copper	II, 2, 75.
Iodine values, a modified bromine vapour method for the determination of ..	III, 2, 23.
Isotopes, studies on—	
Part I. The isotopic composition of water which has been enriched in heavy isotopes by fractionation	IV, 1, 57.
Part II. The approach to isotopic equilibrium during fractional distillation with appreciable hold-up in the stillpot	IV, 1, 63.
Part III. The performance of stainless steel gauze ring packing in the isotopic fractionation of water	IV, 1, 69.
Part IV. Catalysis of isotopic exchange between gaseous oxygen and liquid water	IV, 1, 79.

K	
Karbamate, gesubstitueerde, as moontlike insekdodende middels	II, 3, 131.
Kinetics of the acetylation of sulphuric acid, a reinterpretation of, and an indicator study of acetic acid—acetic anhydride mixtures, using thymol blue	III, 1, 1.
Kinetics of the uncatalysed dehydration of oxalic acid in acetic acid—acetic anhydride mixture	II, 3, 147.
Konstitusie en pirolise van 'n paar pirofosforsauresters	II, 1, 15.

L	
Lead, antimonial, spectrochemical determination of high percentages of antimony in ..	II, 1, 7.
Lead chamber system for the manufacture of sulphuric acid, three notes on ..	I, 1, 15.
Liquids, a theoretical investigation of some properties of	II, 1, 63.
Part I. The relationship between vaporisation and viscous flow	II, 1, 63.
Part II. On the size of holes in liquids	II, 3, 141.

M	
Magnesium hydroxide, ageing of aqueous suspensions of	I, 2, 61.
Magnesium salts, behaviour of the fluorite membrane electrode in solutions of ..	IV, 1, 1.
Magnesium, spectrochemical determination of in cast iron	III, 1, 17.
Manometric method for the determination of sulphide ion in solution	V, 1, 31.
Maroela, <i>Sclerocarya Caffra</i> Sond., pitte, samestelling van die olie van	IV, 2, 1.
β -Methyl-paraconic acid, synthesis of	II, 3, 135.
Molybdenum, interference of, in determination of copper	II, 2, 75.
<i>Myrica Cordifolia</i> —Cape berry wax, fruit—coat fat of	I, 1, 5.

N	
Nitric acid oxidation of coal—	
Part I. Identification of some components of the ether-soluble fraction ..	III, 2, 67.
Part II. The ether-insoluble constituents: the humic acids and the neutral ether-insoluble products	IV, 1, 25.
Part III. Investigation of a chromatographically separated nitrohumic acid fraction	IV, 2, 17.

O	
Organic compounds, a new method for the determination of hydroxyl and water in	II, 1, 59.
Organiese verbindinge, bepaling van swavel in	I, 2, 77.
Oxalic acid in acetic-acid acetic anhydride mixtures, catalysed dehydration of ..	IV, 1, 85.
Oxalic acid, in acetic acid-acetic anhydride mixtures, kinetics of the uncatalysed dehydration of	II, 3, 147.

P	
Paraconic acid, β -methyl-, synthesis of	II, 3, 135.
Phenols, certain, and cinnamic acid, reaction between	II, 3, 165.
Phenols, certain p-substituted, condensation of chloral with, and some derivatives of possible chemotherapeutic interest	III, 1, 13.
Phenyl cinnamate, action of anhydrous aluminium chloride on	II, 2, 109.
Piropfosorsuuresters, konstitusie en pirolise van 'n paar	II, 1, 15.
Pirolise en konstitusie van 'n paar piropfosorsuuresters	II, 1, 15.
Printers' metals, spectrographic analyses of	IV, 1, 103.
<i>Psidium Guajava</i> , guava, an investigation of the synthesis of ascorbic acid in ..	I, 1, 35.

Q	
Quinalizarin, acetylated, colorimetric determination of boron using	IV, 1, 109.

R	
Rate of hydrogen exchange in aqueous solutions of aminoacetic acid	IV, 1, 51.
Rate of reaction, determination of in solution by measurements on gaseous reactants or products which are appreciably soluble in the reaction mixture	II, 3, 161.
Ricinoleic acid—	
Part I. Isolation of the pure acid from castor oil fatty acids	II, 1, 1.
Part II. Some physical properties including polymorphism	II, 3, 125.

S	
Saponins, the—	
Part I. The isolation of Gitogenin and Digitogenin from <i>Castrum Lacvigatum</i> ..	III, 1, 9.
Part II. The isolation of Gitogenin and Digitogenin from <i>Cestrum Parqui</i> ..	III, 2, 63.
<i>Sclerocarya Caffra</i> Sond. (Maroela) pitte, die samestelling van die olie van	IV, 2, 1.
Seed and funicle oils of <i>Acacia Cyclops</i> , the composition of	II, 3, 111.
Senecio alkaloids, the ultra-violet extinction curves of the alkaloids and the "Necic" acids	III, 2, 73.
Senecio alkaloids, South African—	
Part VII. The structure of scleraneic acid	I, 1, 23.
Senecio alkaloidsX, South African. The structures of scleraneic and scleratinic acids	IV, 1, 115.
Shark liver oil, soupfin, chemical technology of—	
Part II. The effect of storage conditions on stability	I, 2, 95.
Sodium formate, a study of the hydrogen exchange in aqueous solutions of ..	IV, 1, 37.
<i>Soianum Panduraciforme</i> E. Mey, the alkaloid from the fruit of	II, 3, 119.
Soupfin-shark liver oil, chemical technology of—	
Part II. The effects of storage conditions on stability	I, 2, 95.
Spectrochemical determination of high percentages of antimony in antimonial lead ..	II, 1, 7.
Spectrochemical determination of magnesium in cast iron	III, 1, 17.
Spectrographic analysis of printers' metals	IV, 1, 103.
Spektrochemiese bepaling van boron in staal	I, 2, 81.
Staal, spektrochemiese bepaling van boron in	I, 2, 81.
<i>Strychnos</i> species, investigation of the fruit of	IV, 2, 35.
p-Substituted phenols, condensation products of chloral with certain, and some derivatives of possible chemotherapeutic interest.	III, 1, 13.

Sulphide ion in solution, a new manometric method for the determination of ..	V, 1, 31.
Sulphide ion in solution, a sensitive electrometric method for the determination of ..	V, 1, 45.
Sulphuric acid, acetylation of, reinterpretation of the kinetics of, and an indicator study of acetic acid—acetic anhydride mixtures using thymol blue ..	III, 1, 1.
Sulphuric acid, three notes on the lead chamber system for the manufacture of ..	I, 1, 15.
Swavel in organiese verbindinge, die bepaling van	I, 2, 77.

T

Theoretical investigation of some properties of liquids—	
Part I. The relationship between vaporization and viscous flow	II, 1, 63.
Part II. On the size of holes in liquids	II, 3, 141.

W

Water and hydroxyl in organic compounds, a new method for the determination of ..	II, 1, 59.
Water, the determination of fluorine in	I, 1, 1.
Water still, an automatic recycling conductance	IV, 1, 19.
